Portfolio: portfolio.ysyoungsan.com

Senior Full-Stack Web Developer | React, TypeScript, C#, ASP.NET, Azure

Open to part-time or casual software-development opportunities.

Professional Summary

Full-stack web developer with 6+ years of commercial experience in Australia building, enhancing and supporting healthcare platforms, CMS-driven websites and Azure-hosted applications. Experienced across React and TypeScript interfaces, C#/ASP.NET integration and production support, backed by earlier Android, Linux and telecommunications engineering.

Technical Skills

Frontend: React, TypeScript, JavaScript, HTML, CSS, SCSS, Web Components, Bootstrap, jQuery

Backend: C#, ASP.NET, PHP, Python, Flask

CMS and platforms: Umbraco, N2 CMS

Databases: Microsoft SQL Server, MySQL, SQLite, PostgreSQL

Cloud and tools: Azure, Azure DevOps, Git, Bitbucket, Jira

Additional: React Native, Java, Kotlin

Professional Experience

Senior Software Developer | Partizan Health (DKSH Group)

Aug 2022 - Feb 2026 | Sydney, Australia

- Delivered enhancements, maintenance and production support across healthcare web platforms used by patients and healthcare professionals.
- Developed and supported frontend modules and CMS workflows using React, TypeScript, JavaScript and Web Components, working across C#/ASP.NET integration and Azure DevOps delivery.
- Contributed across frontend, CMS and backend support for live platforms including Guardian, Ozempic Care, NovoCare, NuYou Support and AbbVie Care.
- Contributed to related patient-support mobile app development using React Native.

Professional Experience (continued)

Web Developer | Cypha Interactive

Aug 2019 - Aug 2022 | Sydney, Australia

- Developed and maintained CMS-driven and custom websites using HTML, CSS, JavaScript, jQuery, Bootstrap, C#/ASP.NET, Umbraco and Azure.
- Contributed frontend development for Aboriginal Languages Trust, and frontend/backend development for National Museum of Australia's Endeavour Plants project and a Transport for NSW project.
- Maintained websites for ASIC, Sydney Harbour Federation Trust, Cockatoo Island and OAIC; supported Azure-hosted environments and ongoing website operations.

Independent Project

Recall | September 2026

recall.buildtogreat.com

A study-practice website for adult learners, with AI-generated practice and later review.

- Led product direction and guided AI-assisted implementation and testing using Codex, including safeguards against ambiguous practice and regression/browser checks.

Project stack: Next.js, React, TypeScript, Tailwind CSS, shadcn/ui, Vitest

Earlier Engineering Experience - South Korea

Senior, Chief and Principal engineering roles at LG Electronics, LG-Nortel/LG-Ericsson, Ericsson-LG and OBELAB, held between 2000 and 2017.

- Developed Android applications, Linux multimedia and browser software, and telecommunications systems.
- Worked with international partners on software integration, troubleshooting and maintenance.
